"FertilityEHR really provided us a whole different level of excellence with all of the programs that we really needed to improve our practice."

- **Debbie Regan**  
IVF Coordinator, Audubon Fertility

"The best product I've seen... FertilityEHR has helped change the way we've run a practice."

- **Dr. Jeremy M. Groil**  
Medical Director and Managing Partner,  
SpringCreek Fertility

**Experience Unparalleled Flexibility With FertilityEHR**

Enjoy a complete set of integrated tools designed to make  
your day-to-day easier.

### Patient Portal & Patient App

Give your patients a platform to better manage their care.

- Book appointments
- Request refills
- View and pay bills

### Mobile EHR

Access your EHR's most essential features from your mobile device.

- Easily chart visits with dictation and touch pen capability
- Launch virtual visits
- View lab orders and results

### InTouch

Keep your patients engaged with an automated patient messaging system.

- Send appointment reminders via SMS/email
- Pre-set a schedule for sending messages
- Easily send important updates to patients

### Televisit

See patients from the comfort of their homes.

- HIPAA-compliant network
- Prepaid and reimbursable appointments
- Directly create visit notes

### OnArrival

Empower your patients to self check-in and eliminate long front desk lines.

- Fill out and sign forms
- Update patient information
- Use the Spanish interface option

### Electronic Medical Office (EMO)

Revolutionize your office with a suite of next-generation office management tools.

- Integrate your phones with your EHR
- Maximize your team's time and skills
- Manage record requests from one screen

Join an intuitive EHR that helps  
you nurture your patients
